### **Re: Update on the Kathlyn Creek Community Watershed designation application**

Dear Claudia:

We would like to thank you for your recent correspondence regarding the pending designation of your community watershed. The Bulkley Valley Community Resources Board (BVCRB) values your engagement and encourages further updates on the status of the community watershed.

Since its inception in 1998, the BVCRB has served as the steward of the land-use direction articulated in the Bulkley Valley Land and Resource Management Plan (LRMP), available for download on our website. The BVCRB is made up of individuals from the public with a range of community values. We rely on this breadth of community values to provide Government Agencies with a balanced perspective on land-use management activities within the Bulkley Timber Supply Area.

The BVCRB has been held up as a model for many other Community Resources Boards across the province. This recognized effectiveness lends itself to community participation. To that end, we extend our appreciation for your correspondence and, if it is all right with you, we would like to post your letter on our website to provide further public awareness to other water-users and members of the community.

Sincerely,

Jeffrey Anderson, Chair  
Bulkley Valley Community Resources Board
