Re: Land referral file # 6407739 - Robert Storey application for purchase for agricultural purposes.

Dear Ms. Williamson

According to the maps of the Agricultural Development Areas (ADAs) agreed to during the Agricultural/Wildlife project, the area covered by this application is listed as an ADA. This proposal is therefore consistent with the LRMP and associated planning documents. The Bulkley Valley Community Resources Board therefore has no objections to this application.

Sincerely,

Adrian de Groot
