BV Community Resource Board  
Smithers, BC

November 8, 2007

Dear Adrian,

Now that damage to Crown land by ATVs and four-wheel drive trucks is illegal with the implementation the new Bill 18 Amendments of March, 2007, it's important to recognize off-road motorized sport and provide a place where the sport is legal.

We want every recreation user group to buy in to the RAMP process and the best way is to provide opportunities for everyone.

We ask for a letter of support from the CRB board for the attached proposal.

Thank you.
