

Hi Jill, Tom, Taylor ???
(I'm guessing these are the names behind the addresses)

Thank you for the ongoing updates regarding the Summer RAMP process and progress.

I understand some of this information may be available, through the web-site, and that these items have been addressed but 3-questions I'd like to ask directly are:

1. Has there been any financial commitments toward ensuring adequate funds are available for the

significant educational and public relations , and if so who will provide that funding?

2. If "Consensus" amongst this group has been reached, will the public have further opportunity for input that may impact what has been agreed to and if so when will this occur?

3. Have all 14 public cabins on crown lands been identified and considered through this process? (Location and Access trail/route on the map, Tenures, Use and Maintenance Agreements documented? Attached is one list, and they are likely others that should be included as well

Thanks again for your ongoing efforts in improving the quality of outdoor recreation in the Bulkley TSA.

Your truly,
Gary Quanstrom
