

Hi Jill

Thank you for the response from the BVCRB regarding the RAMP.
And thanks to Ben, Taylor, Tom and those working on committees to move this process forward in a constructive and positive manner.

This letter, combined with Wednesday's newspaper article, helps to clarify the direction being taken

I understand commitments have been made toward public relations, education, and awareness of the resulting Plan, and that the Plan's implementation will rely on the public's understanding, cooperation, and respectful regard.

Much credit should also be given to Brian Hall and those involved with the Hankin Ski Area project, as this provides great winter, (and summer) backcountry recreational opportunities, close to town

I hope government agencies will also commit to and provide funding for monitoring and enforcement of both the Summer and Winter RAMPs, once they are completed.

Yours truly,

Gary Quanstrom
